# OUR MISSION

*At Page Springs Cellars, it is our goal to create delicious wines that express the unique character of our landscape.*

*We trust that our wines and winemaking convey our philosophies concerning family, education and living life to its fullest.*

*We believe that to make great wine, we must take just as much responsibility for the lands we steward as the community we live in. We feel strongly that growing grapes, making wine and raising a glass is a cultural ritual that fosters friendship, brings together families, and unites communities.*

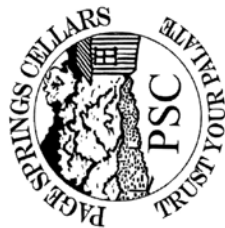

*The hands of the Volunteers who planted our Vineyard*

*Good wine is not strictly the esoteric fare of nobility: Wine is for the people. We have set out to share our passion and interest in wine with everyone from the first time sipper to the seasoned enthusiast. Providing academic and hands on experiences are a big part of this desire to help people expand and trust their own senses.*

*Land, grapes, wine, friends, family, education and fulfillment. Wine is within everyone's reach!*
